

Integrated cyber-physical security for health services

2nd Awareness event

"How to counter cyber-physical threats to Healthcare Infrastructure"

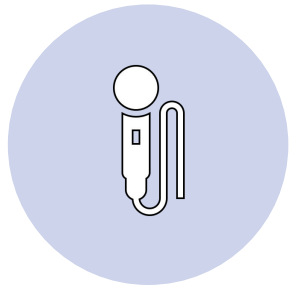

by the SAFECARE Project

1st of February 2021

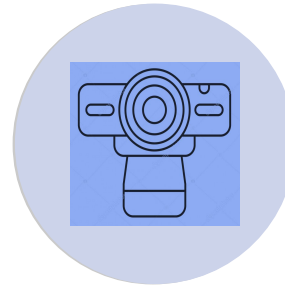

House Rules

- This awareness event is organised in the framework of the SAFECARE project. Only registered participants are invited to attend.
- The event will be **recorded** for dissemination and reporting purposes towards the EC and healthcare security community.
 - Attendance and contribution will be anonymised, and the recording will be deleted once the reporting outcomes have been formulated and approved by the relevant parties.
 - All participants have been informed through the information sheet and agreed with these rules, during the registration. In any case if any of the participants disagrees with the recording, please state it before we start.

Technical instructions

Microphone: Please ensure your microphone is muted during the event, to avoid background noise, when you are not presenting or talking.

Camera: use of camera will reduce the available bandwidth, so cameras will be kept on only by the presenters.

Questions

- [Questions to presenters](#) can be asked using the [GoToMeeting chat](#) anytime during the workshop, indicating to whom the question should be addressed.
- There will be a quick Q&A session after each presentation and if all questions cannot be addressed due to time limits, the discussion slot in the last part of the event will be used.
- The questions will be collected and asked to presenters.

Integrated cyber-physical security for health services

2nd Awareness event

"How to counter cyber-physical threats to Healthcare Infrastructure"

by the SAFECARE Project

FEB 01 2021

09:15 – 09:30	Welcome	Mr. Philippe Tourron SAFECARE project coordinator, Assistance Publique - Hopitaux de Marseille (APHM)
